What is affinity insurance?

The affinity insurance market includes all insurance products, assistance and accessory services intended for a group of people with a common interest or hobby. The term 'affinity' was originally used in marketing and finance.

SPB an innovator in affinity insurance for 50 years

An accent on growth since 1965

Ever since it was founded, SPB has been constantly developing its business internationally, in new sectors and in extending a broad range of insurance-related services. SPB stands out from the competition in its ability to produce solutions adapted to the very latest trends. This quality has ensured its places as an innovator in affinity insurance.

A successful diversification strategy

Europe's leader in affinity insurance and services for large brand clients

SPB's head office is in Le Havre (SPB SAS). SPB SAS has additional offices in France in Alençon, Bezons and Paris.

An international diversification strategy

SPB has obtained European free provision of services authorisation, which enables the company to carry out its business in all European Union countries. SPB has gradually extended its activities in Europe by opening branches or through acquisitions. SPB's main offices outside France are as follows:

- SPB Benelux (Antwerp)
- SPB Garant and SPB Deutschland (Nuremberg)
- SPB Iberica (Madrid)
- SPB ISC (Tunis)
- SPB Italia (Milan)
- SPB Polska (Warsaw)
- SPB UK & Ireland (Portsmouth)

A services diversification strategy: “affinity insurance and much more”

SPB complements its insurance programmes with a wide range of services: new-for-old, returns, repair, replacement, dismantling, recycling and second life. SPB is the only player in the affinity market to offer a 360° range of services to back up its insurance business.

As part of this approach, SPB acquired O2M in 2009, specialised in buy-back and upgrading of corporate fleet, goods repair and refurbishing, aftersales solutions, high tech logistics, broke. In 2013, O2M was renamed SPB Services. SPB Services operates over 8 countries: Belgium, France, Germany, Italy, Poland, Spain, Tunisia and United Kingdom: www.spb-services.com/en

At the beginning of 2012, SPB purchased a stake in Point Service Mobiles, the leading local mobile phone and multimedia product assistance network, which has 200 franchises throughout France. Point Service Mobiles shops offer diagnostics and repair for mobile phones and small multimedia products; the firm has expanded rapidly and boasts repairs to 82% of phones within 40 minutes. Elsewhere in Europe, Point Service Mobiles is branded as Phone Service Center. 50 repair centres are available in Germany, Belgium, Canada, Spain, Israel, Luxembourg, the UK and Tunisia. SPB now owns 90% of Point Service Mobiles/Phone Service Center. For further information, see www.allopsm.fr

Dedicated affinity subsidiaries

Founded in 1981, AVI International is France's leading travel insurance broker.

Among other things, the company creates insurance products for language trips for students and expatriates across Europe and in America and Asia. For further information, see www.avi-international.com

SPB Audio is a French expert in hearing aid insurance and a partner to more than 300 hearing aid providers around the country. At present, only 15% of French people with hearing difficulties are equipped with appropriate assistance. This worrying situation concerns not only senior citizens but also increasingly young people (concerts, excessively loud headphones, etc.). SPB Audio offers four-year cover against the breakage, breakdown, theft or loss of a hearing aid through three plans (Duo, Trio and Quattro) sold directly by hearing aid providers. For further information on SPB Audio, see www.spb-audio.fr

SPB Family is a subsidiary specialised in long-term care insurance. The company develops insurance and assistance warranties to protect families from life's uncertainties such as loss of autonomy, hospitalisation or the caregiver's assistance. For further information: www.spbfamily.eu

A unique skills chain to create value and strengthen brand loyalty

Operating on a white label basis, SPB offers unique expertise in designing and managing tailor-made insurance programmes, warranty extensions and related services for banking products, mobile phones and devices, household needs and everyday goods. As part of its business, SPB offers breakage, breakdown, loss and theft cover and has had ISO 9001 certification since 1997 (approved by Bureau Veritas). 81% of customer survey respondents said they were satisfied with SPB in 2014.

SPB offers its solutions in three ways

- Marketed as they are
 Examples: insurance linked to the loss of means of payment (Sécurilion, BNP Sécurité, etc.), unemployment credit insurance, insurance offered by mobile phone operators and vendors.
- Included in products or packages sold by retailers and other networks
 Examples: bank card benefits such as travel insurance, purchase cover and “the right to make a mistake” with some DIY store cards.
- Direct marketing to individuals under client brands
 Examples: customer appreciation programmes, gas insurance, funeral cover.
